There is going to be a great shortage on vine seeds this season on account of the extreme dry weather. We are large growers and are in position to know. We have just gone over our fields and find the Watermelon crop very short and many varieties of Musk Melon an entire failure. We estimate we will have a surplus of the number of pounds stated of the following varieties; and offer at low prices until sold.

lbs.	Watermelon	Musk Melon.	Squash.
500	Black Diamond.....12c	400 Pride of Georgia.....15c	400 Warty Hubbard.....20c
600	Dark Long.....15c	4200 Seminole.....12c	300 Golden Hubbard.....20c

100	Arkansas Traveler...15c	1500 Colorado Green Seed.....12c	100 Fordhook.....20c

The seed we are offering will all be of high germination and of our own raising. Any Seedsman who is going to be short on any of the varieties offered, better place order at once. Prices will be much higher later; and these quotations are subject to change without notice.

We will take pleasure in booking orders subject to approval of samples. If you are not posted in regard to the melon crop; better investigate and take advantage of this low offer. Wire orders receive prompt attention.

Yours truly,
